# 1-800-BOLLARDS Line

## Why 1-800-BOLLARDS?

1-800-BOLLARDS is dedicated to providing exceptional and aesthetically pleasing perimeter security bollards designed to meet our customer's needs.

1-800-BOLLARDS offers a full line of bollards that are manufactured to withstand vehicle impacts, limit or deny access, and provide pedestrian security while enhancing the integrity and look of the overall design.

To meet the specific design needs of our customers, 1-800-BOLLARDS offers our complete bollard line in a variety of colors and finishes, including stainless

**Fixed/Embedded:** Fixed/Embedded bollards are used to provide solid protection for pedestrians and to prevent vehicle intrusion.

**Removable:** Removable bollards are used to provide and control access for emergency and public safety vehicles. Additionally, they provide protection for pedestrians and restrict vehicle access.

**Baseplate Mounted Bollards:** Baseplate mounted bollards are fixed, surface-mount bollards that are mounted to the slab. These bollards are used when customer application does not allow for any embedment depth. Baseplate mounted bollards are not to be used for stopping vehicles or as a way to ensure perimeter security.

**High Security Bollards:** 1-800-BOLLARDS offers a complete line of High Security Shallow Mount and Deep Mount bollards. These bollards are designed for protection at the perimeter, traffic control, and pedestrian safety. Bollards come in both fixed and removable styles.

**Choose from 4 different bollard caps to enhance your look:**

Dome, Flat, Reveal, or Sloped.

## Why We Do This

The team at 1-800-BOLLARDS has over 25 years combined experience in the field of perimeter security. That experience ensures that our customers get what they want, when they want it.

Our highly experienced team has designed and supplied bollards to military facilities, government facilities, sports stadiums and arenas, colleges and universities, cities, municipalities, retail projects such as malls, lifestyle centers, big box stores and strip malls, museums, and public and private projects all across the world.

**When quality, safety, and protection are paramount, look no further.**
