

Fixed Bollards

In their simplest form, bollards are short posts that establish a protective perimeter. When it comes to safeguarding property and people, the 1-800-BOLLARDS Fixed Bollards provides simple and permanent protection.

These sturdy metal bollards offer many options for safety, security and aesthetics including

a variety of diameters, wall thicknesses and cap styles. In addition, the bollards are manufactured in Stainless Steel or Carbon Steel.

Enhanced protection is achieved when fix bollards are installed into engineered footings. The 1-800-BOLLARDS Fixed Bollards do an impressive job!

CAP STYLES

FEATURES
